Lithuania: Open for Cooperation in Reconstruction and Recovery of Ukraine

Rebuilding Ukraine, we are building much more than just one country. We are shaping the world as it will be for our generation and beyond.

Volodymyr Zelenskyy

Ukraine Recovery Conference, 21 June 2023 – London, UK

Together we can co-create the future of Ukraine!

Ukrainians are already rebuilding their country, and Lithuania advocates that like-minded partners support their efforts in reconstructing critical and socially sensitive infrastructure now. To demonstrate its commitment, Lithuania was one of the first countries to start reconstruction projects on the ground and has significantly strengthened its organizational capacities to develop and manage more initiatives in the future. We want to leverage our experience and invite public and private actors to reach out with ideas for joint efforts in Ukraine.

1 billion

In military, financial, humanitarian and reconstruction support to Ukraine by June 2023

1st

Lithuania is 1st largest contributor worldwide as a percentage of GDP (Ukraine Support Tracker | Kiel Institute (ifw-kiel.de))

4th

Lithuania among OECD countries in terms of the number of hosted refugees per capita

Why partner with us?

We understand the operational and cultural environment, which is especially crucial in current efforts, where speed and direct contacts are in high demand. Our institutional set-up has been crafted to manage and deliver complex (combining both “hard” and “soft” components) international initiatives.

Lithuanian Embassy in Ukraine

- contact point & solid political support
- well-established connections with Ukrainian authorities private and non-governmental actors

Central Project Management Agency

- active in UA since 2014
- portfolio worth 100 m Eur long-term experience managing the EU and international donors' programs
- presence on the ground

Fund for the Development Cooperation and Humanitarian Aid

- accepts (earmarked) donations from international partners
- allows joint programming and management of joint initiatives
- flexibility needed for war-related circumstances

Budget: 4.9 million EUR (of which 1.2 million EUR contribution of Taiwan)
Timeframe: August 2023
Capacity: 400 children
Goal: full reconstruction and equipment of the kindergarten for 400 children

What's next?

Lithuania is eager to work with the reconstruction projects that will directly and immediately affect the life quality of Ukrainians. In close consultations with our Ukrainian partners, we are constantly working on projects' pipeline for implementation with other international partners. Currently, we are curious to explore partnerships in the fields of energy, critical and socially sensitive infrastructure, education, rehabilitation, and reintegration of veterans.
